3M Medical OEM
Double-Coated Medical Tapes

Bringing your Products to Life

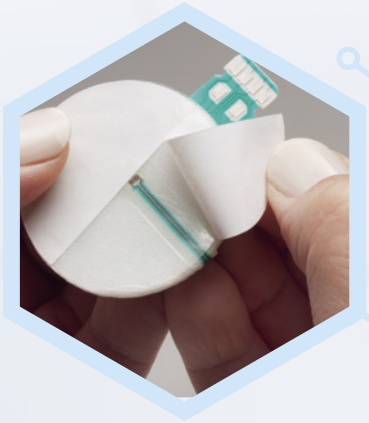
Trusted, Innovative, Global.

3M's double-coated medical grade tapes and transfer adhesives offer an extensive choice of high performance carriers and adhesive combinations, ideal for medical device assembly and attachment to skin.

3M

3M Medical OEM
Double-Coated Tapes

Ideal for device-to-skin and device-to-device applications, where medical grade, clinically tested components are required; 3M double-coated tapes bond directly to the skin as well as to foams, non-wovens, films, plastics, metal and components.



Double-coated tapes offer medical device designers a high degree of flexibility for medical device construction and attachment.

3M's extensive range of adhesive and carrier combinations feature repeat skin adhesion, conformable, fluid resistant, gentle or aggressive and sterilisable adhesive tapes.

Double the **Performance**, **double** the choice

All of 3M's medical grade tapes are tested for clinical safety and regulatory requirements; with local technical support, a fast sampling service and flexible order quantities, we aim to be your partner of choice for medical adhesive tapes.

Typical applications

- Multi-layer wound dressings
- Ostomy devices
- Surgical drapes
- Diagnostic devices
- Electrodes and sensors
- Hair piece attachment
- Fashion/body tape
- Prosthetics
